MEMORANDUM FOR: Director of Personnel

Bob:

I believe we should mention that [ ] is instructing its representatives "on location" and is identifying PATB with the Agency. On the latter we do not know exactly how this is to be done. Since the [ ] instruction has not been finalized, this fact also ruled out my idea of attaching copies to your letters to the recruiters. We can and will get such copies for you to send or to extract for sending to the recruiters subsequently.

Two specifics on the text of the attached:

b. Ref last paragraph of V - do we really mean "associate our name literally" or only by advice to these officials and the [ ] test administrators?

John W. Coffey  
Acting Deputy Director  
for Support
